

INSTALLATION DIARY

HEADQUARTERS  
CAMP A. P. HILL, VIRGINIA

Established by War Department General Order #5, 14 June 1941

A. P. HILL

Ambrose Powell Hill, an American soldier, was born in Culpeper County, Va., on Nov 9, 1825. He attended the U.S. Military Academy and upon graduation was made 2d Lt in the Federal Army. Served in Mexican War on the frontier and in Florida. Later appointed Captain. At the outbreak of the Civil War in 1861, he entered the Confederate Service, was made Colonel of the 13th Regiment of Virginia Volunteers, and order to Harper's Ferry. He fought at the first Battle of Bull Run, at Antietam, Fredericksburg, Chancellorsville and Gettysburg, distinguishing himself in these battles. He was promoted to Maj Gen and later to Lt Gen. He was killed while defending Petersburg on April 2, 1865. A. P. Hill Military Reservation located in Caroline County, Virginia, was named in his honor. There is also a statue erected to his memory in Richmond, Virginia. The Reservation boundary lines are as follows: From Corbin south along Nr 2 to Bowies Pond, easterly about 1 mile, thence southerly to Nr 631 about about 1/2 mile east of Farmers Store across country to junction Nr 301 and Nr 608, thence across country to Nr 637, 1 mile east of Bowling Green; thence easterly along Nr 631 1/2 mile southeasterly along Nr 637 and Nr 640 to Smoots; across country northeasterly along Nr 637 and its junction with Nr 625; northerly along Nr 625 and Nr 642 to junction of Nr 639 from that point across country in a generally northerly direction to Return on Nr 17, northwesterly along Nr 17 to Port Royal Cross Roads; thence southwesterly of Port Royal Cross Roads southwesterly along Nr 301 1 mile north of Port Royal Cross Roads; thence westerly and north to Route Nr 17 at a point 1 mile east of Samuel's Corner on Nr 17; thence westerly to Rappahannock Academy then northwesterly and north on Nr 614 to Moss Neck; thence from Moss Neck southwesterly along Nr 607 to a point approximately 1 mile north of Nr 607 and Nr 612; thence cross country in a generally northwesterly direction to Nr 610 and along this route west and south west back to Corbin. Forty-fourth Infantry Division used this reservation as a maneuver area before the Service Unit was established.

When I took over command of A. P. Hill, of which about 32,000 acres had

1943

Aug

been a part, a number of families still remained that had to be moved. This area was the territory northwest of 301. Later, all of the area, southeast of 301 was acquired by the War Department. Arrangements had to be made to move lots of these families. This was done through the cooperation of the C.C.C Camps in our nearby vicinity, using some of their transportation, as well as what we could use of our own. All of this work required a considerable amount of time. This area constitutes about 36,000 acres, nearly all of which is used as a range area, affording an opportunity for all types of weapons to be fired at the same time. Ranges are so laid out that all firing is directed toward an impact area. The Station Complement at that time ran from 100 men to 135 -- officer personnel ranged between 12 and 17 -- until we started to use the Reservation for a staging area on or about the latter part of August 1942. From that time on, the Station Complement went up very rapidly, reaching as many as 40 officers and 300 men. Troops occupying the Reservation were averaging around 15,000 to 28,000. This included Brigades, Divisions, and Task Force that were assembled, trained and equipped on this Reservation, constituting something in excess of 75% of the entire Task Force which landed in North Africa. During this period of time, there was a tremendous amount of experimental work with various types of weapons, ranging from 22's to 8" mortars, as well as 155 self-propelled, the first that were issued to troops for use in the field. Much of this equipment had to be modernized and changed, which was done in the field by a few specialists, assisted by the Station Complement and field troops.

All of the above work was accomplished here on the Reservation even though we were not supposed to be carrying any equipment or doing any of the above, due to the fact that we were known as a "Maneuver Area" only. In fact, we have never been given credit officially for any of the above accomplishments.

All types of organizations have trained here, (assisted) by the Station Complement. This includes hospitals, engineering companies, of which we had one engineering company, known as the 800th Engineer Forestry Co, that was activated and trained here. During this training, they cut and sawed approximately 2 1/2 million feet of lumber. This lumber has been used by the Post Engineer for various types of construction, as well as by maneuvering troops.

We purchased also a saw mill, and have cut and sawed several hundred thousand feet of lumber -- work having been done by the Station Complement.

We have drilled, constructed and have working 4 very complete water points, including shower baths with hot and cold water. Water points consist of wells averaging around 325 feet deep. All water for troops occupying the Reservation is hauled from these water points. We pump water from 2 of these wells with electric motors; the other 2 are gasoline driven engines. All water points are maintained by a water detail, who is responsible for testing of water, as well as proper chlorinated mixtures. All water used at these water points is chlorinated and pumped into overhead tanks, and we have arrangements for drawing water in water cans something similar to gasoline dispensers, except water flows by gravity.

1947

Aug

We have about 250 miles of road, including both black top and gravel.

We had for a short period of time on the Reservation 2 complete, including personnel, C.C.C. Camps. Shortly after buildings were moved to the Reservation and constructed, the C.C.C.'s were eliminated. These buildings afforded us means of limited space for storage of various types of supplies.

For the number of tracts, acreage and cost, refer to Exhibit #1.

I am of the opinion that members of the committee are very familiar with the set-up as we have had, and now have, in the Exchange operation.

## Both State, U. S. Govern A. P. Hill

*From Lenoir Star 26 Nov*

The Army has decided that the 80,000-acre A. P. Hill Military Reservation near here in Caroline County is to have "concurrent jurisdiction."

Secretary of the Army, Kenneth C. Royall informed Governor Tuck of this in a brief letter yesterday, and, in the absence of further explanation, State officials interpreted the development to mean that both State and Federal laws and police powers would apply on the reservation.

A comment from the Attorney-General's office in Richmond suggested that, in arrangements where the Federal government acquires properties within a State for military purposes, the national government retains the right to say whether Federal or State laws, or both, exercise jurisdiction over the property.

## U. S. Accepts 'Jurisdiction' At A. P. Hill

### Royall Writes Tuck On 'Concurrent' Plan

A brief letter from Kenneth Royall, Secretary of the Army, yesterday informed Governor Tuck that the United States accepts "concurrent jurisdiction" over the nearly 80,000 acres constituting A. P. Hill military reservation in Caroline County.

In the absence of additional enlightenment from the Washington authorities, this was construed to mean that the Federal government recognized Virginia laws and police powers would apply over the territory as well as Federal laws.

An off-hand comment from the Attorney-General's office here suggested that, in arrangements where the Federal government acquires properties within a State for military cantonments, the United States retains the option to say whether Federal or State or both governments concurrently shall exercise jurisdiction over the property.

The A. P. Hill reservation was acquired back in 1941, however, and was used for military training of Army troops during World War II. It was not known here what might be the significance of the notice yesterday from Secretary Royall.

## A. P. Hill Trespassers Are Warned

Col. A. S. Quintard, Commanding Officer of A. P. Hill Military Reservation today released the following information for those persons who might have business or wish to visit any part of the reservation.

"It is not the intention or desire of this command to keep authorized persons from visiting the A. P. Hill Military Reservation. However, there has been a large number of poachers and trespassers on the Reservation who have destroyed and stolen Government property, destroyed trees and shrubs, taken game out of season and practiced other forms of vandalism and it has been found necessary to take steps to prevent this trespassing.

"Motor patrols are out daily, additional no trespassing signs have been erected to indicate the Reservation boundary and all side roads have been blocked.

"Those desiring to visit any part of the Reservation are required to sign the Visitor's Register at Reservation Headquarters, at which time information as to danger areas, etc., will be given.

"The cooperation of the public is requested," Col. Quintard concluded.

Wreckage of Plane That Crashed Yesterday at A. P. Hill Military Reservation  
Engine Failure Blamed for Mishap That Seriously Injured Pilot of Plane

## 2 Army Officers Injured in Crash Of Liaison Plane

Accident Occurs  
On Reservation  
*10 January 1951*

Two Army officers were injured yesterday afternoon when their light liaison plane crashed at A. P. Hill Military Reservation.

The pilot, Captain John R. Bingen, 33, of Laurel, Md., was in a serious condition today at Mary Washington Hospital. He suffered a head injury and lacerations of the face and left hand.

The other occupant, 1st Lt. Alvin L. Brooks, 30, of Baltimore, suffered possible back and head injuries and lacerations of the head and is in fair condition today at the hospital.

Both men are assigned to the 3rd Armored Cavalry Regiment which is now engaged in maneuvers at A. P. Hill.

The plane crashed at the old Civilian Conservation Corps camp air-strip while making a normal approach to the field. Army officials blamed engine failure for the mishap which occurred 50 feet from the end of the runway.

Capt Harold Lampner, regimental surgeon, was near the scene of the accident and, after a preliminary examination of the men, dispatched them by jeep-ambulance to the hospital here.

One wing was torn from the plane, the wheels were smashed and heavy damage was inflicted in the cabin. The accident occurred at 4:25 p.m.

# Two Die As Bomber Crashes In Virginia

A. P. HILL MILITARY RESERVATION, Va., July 14.—AP— One of four light bombers taking part in air-ground exercises crashed in flames last night, killing its two crewmen.

Rescue workers probed the tangled wreckage in an effort to check a state police report that a liaison plane had collided with the B26, flying out of Langley Air Force Base.

Military sources could not confirm the report another plane was involved.

Bits of burning wreckage and parts of human bodies were scattered over a five mile area in a wooded section about seven miles north of Bowling Green.

The bombers were working with troops of the 43rd Infantry Division on a tactical support problem at the time of the crash.

Fliers in the other planes reported seeing the fiery crash.
