# INTRODUCTION

## REGIONAL TRAINING SUPPORT CENTER CATALOG

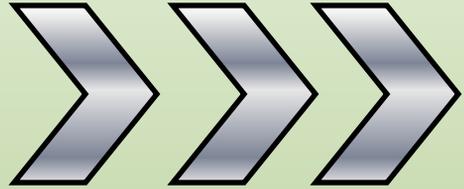

Here at Fort A.P. Hill's Regional Training Support Center (RTSC), we live by the vision *"The Best Training and Support, Anywhere"*! This catalog serves to assist you through the process of utilizing the RTSC to enhance your training experience. From the ground up, we will show you what we have to offer and how to obtain our assistance.

Our personnel can assist you with any specific questions. We have included a phone list and organizational structure to make sure you get the right assistance from the right person.

If there is anything that you need and don't see in this catalog, please contact us. Your training is not limited to what we have on hand, as we have other area training support centers we can reach out to for devices and GTAs.

We look forward to serving you!

## CUSTOMER SERVICE CENTER

The first step in scheduling training enhancement with the RTSC is to make a stop in our Customer Service/ Retail Area. "Look, but don't touch" does not apply as the RTSC staff is happy to allow you hands on access to assist you in determining what equipment will give you the best training experience at Fort A.P. Hill

Our retail center and TADSS warehouse are located at:

RTSC

19767 North Range Rd. BLDG 1232  
Fort A.P. Hill, Virginia 22427

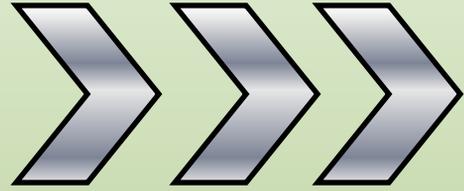

It's the big warehouse to your left on North Range Rd, directly across from Range 3 - you can't miss it!

## RFMSS SCHEDULING OF RTSC SIMULATIONS AND TADSS REQUESTS

### TIPS TO REDUCE CONFLICTS WHEN SCHEDULING ON RFMSS

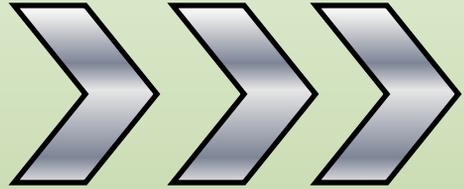

- Ensure unit has certified operators to run the virtual simulator, or contact 804-633-8349 to set up a Instructor/Operator course.
- Always begin the new request from the two week calendar to ensure the facility is available and no conflict exists.
- Must have one request for each day of use requested.
- Must include start and end times with your dates.
- Provide a reliable POC, phone number and email address.
- Include additional unit data (Company, Battalion) under the "User Fields" Tab.
- Fill out a DA Form 1687 and Assumption of Command prior to your training dates.
- The more information you provide on the request, the better we can serve your training requirements.
- Call our RFMSS schedulers for any assistance – 804-633-8333

### FILL OUT YOUR REQUEST COMPLETELY!

The screenshot shows the 'Scheduling: Request' form in a web browser. A red dashed box highlights the input fields for: Unit, Start Date (29/07/2010 09:00), End Date (29/07/2010 09:20), Submitted Date, POC (Person ID, Phone Number), and Installation (FOREFRONT). Below the form is a table with columns: Action, Standard, Continuous, Air, Status, Sub-Status, Fire, Desk, Facility/Airspace, Subdivision, Event Name, Start Date, End Date, and Max. Facility / Airspace Subdiv. Altitude (MSL Ft.). The table contains one row with values: [blank], [blank], [blank], [blank], RES, TSC, EST 10 F, [blank], [blank], 29/07/2010 09:00 L, 29/07/2010 09:20 L, 3000.

GTA

Request TADSS through RFMSS. GTAs can be requested directly through the RTSC at 804-633-8349. If there is a GTA that you need, and it is listed on our request document, please contact us. We can order GTAs and have them sent here prior to your training, or have them sent direct to your unit.

# Army Games for Training

**VBS3:**  
3D first-person games-for-training platform that provides realistic semi-immersive environments, large dynamic terrain areas, hundreds of simulated military and civilian entities, and a range of geo-typical (generic) terrain areas, as well as actual, geo-specific terrains from the U.S. Army area of operations. Numerous U.S. Army, Marine Corps, and Air Force equipment is modeled in this game.

Army Games for Training also includes:

VBS2 CFFT

Elect Bilat

Language and Culture

And more...

Although simulators should never be used to replace live training, they can be a great tool to be used in cohesion with live training before, during, and after the live training mission. VBS3 can be used for the planning of missions and development of standard operating procedures as well as pre-mission rehearsals in order to save money and resources for the live training mission. .
